James H. (Jim) Wanserski

Principal—Business Advisory Services: *Executive Management: Trustee/CEO/COO/CFO, Turnaround & Business Consulting, Governance/Internal Audit, Accounting; Litigation Support, Fraud Prevention & Detection; Speaker*

Jim possesses 30 years of work experience: ten years in consulting, turnaround, financial operations; and over 20 years of telecommunications, high-tech and related services industry experience in finance, accounting and operational roles. He has held internal audit, telecom management and executive positions with MCI, Telecom*USA and Sprint, consulting management with a specialty telecom office within Arthur Andersen Business Consulting, and turnaround consulting with Morris*Anderson & Associates, Ltd.

Selected Roles and Projects include:

- Served as Management Trustee in: AT&T/Centennial and Verizon/Alltel, and as telecom management consultant for trustee law firm (Washington DC) in ATT/Dobson and Verizon/Rural Cellular. Responsible to U.S. Department of Justice (“DoJ”), Telecommunications Enforcement Division.
- As part of a 10-month turnaround assignment, served as COO of a regional cellular firm preparing for a strategic sale.
- Led or consulted on multiple **turnaround** projects in several industries; roles included COO and CFO.
- Senior Vice President – Finance for a \$1 billion division of a national telecom company: responsible for finance, accounting, reporting, revenue and purchasing.
- Director of Consulting for Arthur Andersen’s Specialty Telecom office. Clients included national and global telecom companies, along with targeted revenue assurance and customized project work at high-tech companies.
- Director of Finance responsible for credit & collections for all domestic commercial business of a global telecom company; \$1.8 billion portfolio, billing for one (\$2 billion revenue) business segment, six service centers and over 600 people.
- Director - Finance for a global telecom company (Chicago, IL-based \$1 billion commercial division); directed business planning/budgeting, accounting, billing, financial reporting, information technology, and operational support functions.
- Director of Internal Audit for a multi-national telecom company; responsible for all financial, Information Technology and data center/infrastructure audits, reported to executive management and the Audit Committee.
- Assistant Controller for a global telecom company: responsible for \$3 billion capital asset portfolio and all property accounting during the construction of the nationwide fiber optic network.
- Multiple other consulting, management and operational roles.
